ELSEVIER

Biomembranes

Vol. 1285, No. 1; 13 November 1996

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Information for Contributors *vii*
Editorial *xiii*

Regular papers

Surfactant protein B: effects on lipid domain formation and intermembrane lipid flow
L.A.J.M. Creuwels, L.M.G. Van Golde and H.P. Haagsman (The Netherlands) 1

Inhibitory effect of internal sodium and Hepes on the voltage-dependent potassium conductance of rat Leydig cells
J.-F. Desaphy and M. Joffre (France) 9

Binding of influenza A virus to monosialoganglioside (GM_3) reconstituted in glucosylceramide and sphingomyelin membranes
T. Sato, T. Serizawa and Y. Okahata (Japan) 14

Crosslinking of aminophospholipids in cellular membranes of lens by oxidative stress in vitro
D.K. Bhuyan, R.W.P. Master and K.C. Bhuyan (USA) 21

Light-induced reversible local fusions of thylakoid membranes in the presence of dibucaine or tetracaine
G.A. Semenova, A.V. Agafonov and V.K. Opanasenko (Russia) 29

Cercospora beticola toxins. Part XVII. The role of the beticolin/Mg^{2+} complexes in their biological activity. Study of plasma membrane H^+-ATPase, vacuolar H^+-PPase, alkaline and acid phosphatases
E. Gomès, R. Gordon-Weeks, F. Simon-Plas, A. Pugin, M.-L. Milat, R.A. Leigh and J.-P. Blein (France, UK) 38

Rhodopsin-cholesterol interactions in bovine rod outer segment disk membranes
A.D. Albert, J.E. Young and P.L. Yeagle (USA) 47

Altered tissue-specific opsonic activities and opsono-recognition of liposomes in tumour-bearing rats
S.M. Moghimi and H.M. Patel (UK) 56

Altered membrane phospholipid organization and erythrophagocytosis in Eβ-thalassemia
P.T. Srinivasan and J. Basu (India) 65

Characterization of a non-specific lipid transfer protein associated with the peroxisomal membrane of the yeast, *Saccharomyces cerevisiae*
C. Ceolotto, W. Flekl, F.J. Schorsch, D. Tahotna, I. Hapala, C. Hrastnik, F. Paltauf and G. Daum (Austria, Slovakia) 71

Membrane permeability and stability in buffer and in human serum of fluorinated di-*O*-alkylglycerophosphocholine-based liposomes
V. Ravily, C. Santaella and P. Vierling (France) 79

Binding of daidzein to liposomes
J.Y.A. Lehtonen, H. Adlercreutz and P.K.J. Kinnunen (Finland) 91

Metastable rippled gel phase in saturated phosphatidylcholines: calorimetric and densitometric characterization
R. Koynova, A. Koumanov and B. Tenchov (Bulgaria) 101

New phases induced by sucrose in saturated phosphatidylethanolamines: an expanded lamellar gel phase and a cubic phase
B. Tenchov, M. Rappolt, R. Koynova and G. Rapp (Bulgaria, Germany) 109

Information for Contributors *vii*

Rapid reports

Activation by methylene blue of large Ca^{2+}-activated K^+ channels
J.D. Stockand and S.C. Sansom (USA) 123

Complement activation in human serum by liposome-encapsulated hemoglobin: the role of natural anti-phospholipid antibodies
J. Szebeni, N.M. Wassef, A.S. Rudolph and C.R. Alving (USA) 127

Regular papers

The mechanism of monensin-mediated cation exchange based on real time measurements
E. Nachliel, Y. Finkelstein and M. Gutman (Israel) 131

Utilization of monensin for detection of microdomains in cholesterol containing membrane
S. Bransburg-Zabary, E. Nachliel and M. Gutman (Israel) 146

Evidence from incorporation experiments for an anionic channel of small conductance at the apical membrane of the rabbit distal tubule
N. Denicourt, S. Cai, L. Garneau, M.G. Brunette and R. Sauvé (Canada) 155

Zeaxanthin (dihydroxy-β-carotene) but not β-carotene rigidifies lipid membranes: a ^{1}H-NMR study of carotenoid-egg phosphatidylcholine liposomes
J. Gabrielska and W.I. Gruszecki (Poland) 167

H^+/K^+ exchange in reconstituted yeast plasma membrane vesicles
J. Ramírez, A. Peña and M. Montero-Lomelí (Mexico, Brazil) 175

Fusion between Jurkat cell and PEO-lipid modified liposome
N. Higashi, M. Yamauchi, Y. Okumura, M. Nakanishi and J. Sunamoto (Japan) 183

Temperature dependence of the exchange of monovalent anions in human red blood cells
G.F. Baker and P. Baker (UK) 192

Kinetics of conformational changes associated with potassium binding to and release from Na^+/K^+-ATPase
P.R. Pratap, A. Palit, E. Grassi-Nemeth and J.D. Robinson (USA) 203

Effect of astroglial cell swelling on pH of acidic intracellular compartments
G.L. Busch, H. Wiesinger, E. Gulbins, H.-J. Wagner, B. Hamprecht and F. Lang (Germany) 212

Liposomal phosphatidylserine inhibits tumor cytotoxicity of liver macrophages induced by muramyl dipeptide and lipopolysaccharide
T. Daemen, J. Regts and G.L. Scherphof (The Netherlands) 219

Swelling-induced activation of $Na^+,K^+,2Cl^-$ cotransport in C6 glioma cells: kinetic properties and intracellular signalling mechanisms
A.A. Mongin, S.L. Aksentsev, S.N. Orlov, Z.B. Kvacheva, N.I. Mezen, A.S. Fedulov and S.V. Konev (Belarus, Canada) 229

Effect of sterical stabilization on macrophage uptake in vitro and on thickness of the fixed aqueous layer of liposomes made from alkylphosphocholines
R. Zeisig, K. Shimada, S. Hirota and D. Arndt (Germany, Japan) 237

Encapsulation of hemoglobin in a bicontinuous cubic phase lipid
S.B. Leslie, S. Puvvada, B.R. Ratna and A.S. Rudolph (USA) 246

Modulation of cultured brain, adrenal, and aortic endothelial cell glucose transport
C.G. Gaposchkin and J.F. Garcia-Diaz (USA) 255

Interaction of 2,4-dichlorophenoxyacetic acid (2,4-D) with cell and model membranes
M. Suwalsky, M. Benites, F. Villena, F. Aguilar and C.P. Sotomayor (Chile) 267

Cumulative Contents, Vol. 1285 277
